UNITED STATES DEPARTMENT OF THE INTERIOR GEOLOGICAL SURVEY

Indian Agency .	Jiesel Lig-Apach
Allottee	
Lease No.	treet Jicarille

MATICE OF INTENTION TO DOM:	SUBSEQUENT REPORT OF WATER SHUT-OFF	
NOTICE OF INTENTION TO DRILL NOTICE OF INTENTION TO CHANGE P		-[
NOTICE OF INTENTION TO TEST WATE		
IOTICE OF INTENTION TO REDRILL C		
OTICE OF INTENTION TO SHOOT OR		
NOTICE OF INTENTION TO PULL OR A	ALTER CASING SUPPLEMENTARY WELL HISTORY	
OTICE OF INTENTION TO ABANDON	Water below X 007.17	938
(INDICAT	TE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA) 5.020106105	JUL AUSÉ
	October 14, FARMINGTON NE	W NIE
ell No is loc	cated 990 ft. from line and 990 ft. from W line of sec.	34
	[5] [W]	
(14 Sec. and Sec. No.)	(Twp.) (Range) (Meridian)	
(Field)	(County or Subdivision) (State or Territory)	-
ne elevation of the derrick	s floor above sea level is 6559 ft. 6551 er.	
he elevation of the defrica	thool above sea level is	
	DETAILS OF WORK	
	ereneration of the collection	
tate names of and expected depths to	to objective sends; show sizes, weights, and lengths of proposed casings; indicate mudding job	, cemen
tate names of and expected depths to		, cemen
To incudes gas progate the tubing and profits the tubing and profits	to objective sends; show sizes, weights, and lengths of proposed casings; indicate mudding job	with
tate names of and expected depths to To incudence gas you gas lift valves at the tubing and you	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work)	erith the
To inculate gas progate the tubing and produced at	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work)	erith when
tate names of and expected depths to To incudence gas pro- gas lift valves at the tubing and produ	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) refraction by pulling 2" tubing and manning lit" tubing pro-demonstrated intervals - will then intervals fluid these gas through the sameless.	erith the
tate names of and expected depths to To incuded gas pro- gas lift valves at the tubing and produ	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) refraction by pulling 2" tubing and manning lit" tubing pro-demonstrated intervals - will then intervals fluid these gas through the sameless.	with the
To inculate gas progate lift valves at the tubing and product	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) refrection by publing 2" tubing and unusing 14" tubing year-declarational intervals - will then interests fluid these gas through the number.	with the
To inculate gas pro- gas lift valves at the tubing and pro-	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) refrection by publing 2" tubing and unusing 14" tubing year-declarational intervals - will then interests fluid these gas through the number.	with
tate names of and expected depths to To increase gas yeu gas lift valves at the tubing and produ	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) refraction by pulling 2" tubing and manning lit" tubing pro-demonstrated intervals - will then intervals fluid these gas through the sameless.	with the
To incudate gas yes gas lift values at the tubing and pood	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) reflection by publing 2" tubing and manning 14" tubing year-declarational intervals — will then intervals fluid the particles and the case in the c	with
To incude on proper the lift value as the tubing and prod I understand that this plan of work The Ohio 011:	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) reflection by publing 2" tubing and manning 14" tubing year-declarational intervals — will then intervals fluid the particles and the case in the c	with
I understand that this plan of work ompany	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) reduction by public 2" tubing and manning 14" tubing year-demonstrated factorials - will them interests fluid them	with
To incude to get you get lift valves at the tubing and prod	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) reduction by public 2" tubing and manning 14" tubing year-demonstrated factorials - will them interests fluid them	with
I understand that this plan of work The Otile Otil	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) refrection by publicag 2" tubing and manning 14" tubing pen-denominal intervals - will then internal fluid and the manning	with
I understand that this plan of work The Otile Otil	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) reduction by public 2" tubing and manning 14" tubing year-demonstrated factorials - will them interests fluid them	with
I understand that this plan of work The Chie 611: ompany F.O. Best 130.	to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding job ing points, and all other important proposed work) refrection by publicag 2" tubing and manning 14" tubing pen-denominal intervals - will then internal fluid and the manning	with
