	ing points, and all other important g	engths of proposed casings; indicate mudding jobs, cemes proposed work)
To increase with gas li	to objective sands; show sizes, weights, and le ing points, and all other important go gas production by pullisit valves at pro-determin	engths of proposed casings; indicate mudding jobs, comes proposed work) 12 ** Trabing and Turning 1 ** tube 13 ** Intervals - will then interes
To increase with gas li	to objective sands; show sizes, weights, and le ing points, and all other important production by pullist talves at pre-determinate the tubing and productions.	engths of proposed casings; indicate mudding jobs, cemes proposed work)
To increase with gas li fluide thro	to objective sands; show sizes, weights, and le ing points, and all other important production by pullist talves at pre-determinate the tubing and productions.	engths of proposed casings; indicate mudding jobs, comes proposed work) 12 ** Trabing and Turning 1 ** tube 13 ** Intervals - will then interes
To increase with gas li fluide thro	to objective sands; show sizes, weights, and le ing points, and all other important production by pullist talves at pre-determinate the tubing and productions.	engths of proposed casings; indicate mudding jobs, comes proposed work) If trobing and remaining it to the intervals - will then intervals the cases in the case it is to the
To increase with gas li fluide thro	to objective sands; show sizes, weights, and le ing points, and all other important production by pullist talves at pre-determinate the tubing and productions.	engths of proposed casings; indicate mudding jobs, comes proposed work) If trobing and remaining it to the intervals - will then intervals the cases in the case it is to the
In increase with gas li fluide thro	to objective sands; show sizes, weights, and le ing points, and all other important production by pullist talves at pre-determinate the tubing and productions.	engths of proposed casings; indicate mudding jobs, comes proposed work) as 2 trobing and running 1, a trobing and intervals - will then intervals and the case of
In increase with gas li fluide thro	to objective sands; show sizes, weights, and le ing points, and all other important production by pullist talves at pre-determinate the tubing and productions.	engths of proposed casings; indicate mudding jobs, comes proposed work) as 2 trobing and running 1, a trobing and intervals - will then intervals and the case of
To increase with gas li fluide thro	to objective sands; show sizes, weights, and le ing points, and all other important production by pullist talves at pre-determinate the tubing and productions.	engths of proposed casings; indicate mudding jobs, comes proposed work) If trobing and remaining it to the intervals - will then intervals the cases in the case it is to the
To increase with gas li fluide thro increase pr	to objective sands; show sizes, weights, and ling points, and all other important gos production by pullished values at grandaterniangh the tubing and production.	engths of proposed casings; indicate mudding jobs, comes proposed work) It trobing and remaining it to the case intervals - will then interest the case in the ca
To increase with gas liftuide there increase pro	to objective sands; show sizes, weights, and ling points, and all other important gos production by pullished values at grandaterniangh the tubing and production.	engths of proposed casings; indicate mudding jobs, comes proposed work) as 2 trobing and running 1, a trobing and intervals - will then intervals and the case of
In increase with gas liftered there increase professional that this plan of wormpany	to objective sands; show sizes, weights, and ling points, and all other important go goes production by pullishes trained at pre-determined the training and production.	engths of proposed casings; indicate mudding jobs, comes proposed work) It trobing and remaining it to the case intervals - will then interest the case in the ca
understand that this plan of wor	to objective sands; show sizes, weights, and ling points, and all other important go good and production by pullished values at pre-determination the trading and production.	engths of proposed casings; indicate mudding jobs, comes proposed work) It trobing and remaining it to the case intervals - will then interest the case in the ca
To increase with gas liftuide there increase professional that this plan of wormpany	to objective sands; show sizes, weights, and ling points, and all other important go good and production by pullished values at pre-determination the trading and production.	engths of proposed casings; indicate mudding jobs, cemes proposed work) The trade and remained it to be interested in terraine - will then interested gas theorem the constitute and control of the cont
In increase with gas liftuide there increase professional that this plan of wormpany	to objective sands; show sizes, weights, and ling points, and all other important go good and production by pullished values at pre-determination the trading and production.	engths of proposed casings; indicate mudding jobs, cemeroposed work) REPROPOSED and remaining 15th tool intention gas through the casualus and OCT-20-1958 OUL CON. CON.
In increase with gas liftwide three increases professional that this plan of work ompany	to objective sands; show sizes, weights, and ling points, and all other important go good and production by pullished values at pre-determination the trading and production.	engths of proposed casings; indicate mudding jobs, cemeroposed work) Track in tervals - will them interest in tervals - will the constant and the community in the constant in tervals - will the constant in the constant in tervals - will the constant in the constant in the constant in the constant in tervals - will the constant in
