Dear Sir:

The annual test which is presently being conducted on the above well will be accepted in lieu of the initial deliverability test. As this well is in a non-prorated pool and therefore no allowable is assigned by the Commission, no penalty is involved for failure to file the initial test.

For your future information, however, our general testing orders do require that all gas wells submit initial deliverability tests as well as annual tests. If you have any further questions regarding the above matter, please contact us.

Yours very truly
