Pictured Cliffs

Dear Sir:

Your letter of August 15 has been referred to my attention.

The above captioned well was put on test August 16 for the conditioning period and is scheduled to come off test September 14. It was a misunderstanding on our part that this well has not already been tested. We understood that we were to wait for the annual testing period which is published by El Paso. We are sorry that this test has been overdue.

We have contracted the operation and testing of this well to Mr. Bradley Keyes with Geoelectric, Inc. I have asked Mr. Keyes to contact you to see if there is anything further that we might do to rectify this situation.

Very truly yours,

CABOT CARBON COMPANY
