## New Mexico OIL CONSERVATION COMMISSION Aztec, New Mexico

June 3, 1958

Magnolia Petroleum Company P.O. Box 2406 Hobbe, New Mexico

Att: Mr. B. E. Robinson, Jr.
District Superintendent Natural Gas Department

Dear Siri

Reference is made to your letter of May 29, 1958 regarding production etatus of your Jicarilla \*D\* #1 in Section 24-26N-3N, Blanco Mesaverde Pool. This letter will serve as your approval to produce the above well until a deliverability test can be made. In the event a test cannot: be secured within 60 days then please submit to this office a resume of the production history on the well so that we may determine what allowable it should be given.

I we no reason why the well could not be classified production marginal if its producing capacity is less than any other non-marginal unit in the pool. In the event that its producing capacity during any month is larger than any other non-marginal unit in the pool it will be necessary that we device some method of arriving at a calculated deliverability so that a proper allowable may be assigned.

If we can be of any further service in this matter, please notify us.

Youre very truly

Emery C. Arnold Supervisor, District #3

BCA 1 kg
