**Magnolia Petroleum Corporation
Box 2406
Hobbs, New Mexico**

Gentlemen:

Our records indicate that one of your wells in the Blanco Mesaverde Pool is delinquent for initial or annual deliverability test.

Your #1 Jicarilla "D" in Section 24-26N-3W was connected to a pipeline June 26, 1957. Under the provisions of Order R-333-C,D and E a deliverability test should have been filed with this office by August 26, 1957. If this test is not received within the next 60 days we will issue a shut-in notice to the pipeline company.

Yours very truly

**Emery C. Arnold
Supervisor, District #3**
