July 1, 1954

New Mexico Oil Conservation Commission
Aztec, New Mexico

Attn. Mr. Emery C. Arnold:

This is to advise you that we are going to communitize the 40 acres in the SE $\frac{1}{4}$ of Sec. 20-26N-6W, with El Paso Natural Gas Company who has the gas rights on the three other 40 acres in the SE $\frac{1}{4}$ of Section 20. This agreement is in the making now and should be agreed on within the near future.

We hope this well forms C-104 and C-110 will be approved so that this well can be put on production as it has been completed and waiting pipe line connections for some time now.

Yours truly,

ED W. CANNEDY
