

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

Title

THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN OF THE EARTH.

The origin of the earth is a subject which has occupied the minds of philosophers from the earliest ages. The ancients were divided into two schools, the one holding that the earth was created out of nothing, and the other that it was formed out of chaos. The former school was the more numerous, and the latter the more philosophical. The former school was the more numerous, and the latter the more philosophical. The former school was the more numerous, and the latter the more philosophical.
