May 20, 1964

Harold O'Connor
300 Carlisle SE
Albuquerque, New Mexico

Dear Mr. O'Connor:

We have received your letter of May 15, 1964 regarding a new allowable for your #1 Jean Read Federal which is located in Section 15-26N-1E, Puerto Chiquito Mancos Pool.

I am enclosing a supply of Form O-116, Gas-Oil Ratio test forms. Please fill in the information from the test you mentioned in your letter on this form and mail two copies to us. The gas-oil ratio should also be calculated if you had a gas volume. If the gas volume was too small to measure then enter "Too small to measure" under "Gas". If it was measurable then divide the total daily gas produced by the daily oil produced and fill in the gas-oil ratio column. We will amend your allowable as soon as this form is received.

Yours very truly

Emery C. Arnold
Supervisor, District #3
