Mobil Oil Company
P.O. Box 2488
Santa Fe Springs, California

Attn: Mr. Reynold L. Pedersen

Dear Sir:

Reference is made to your letter of June 4, 1964 regarding the dedicated drilling unit for your Jicarilla "E" #7 well located in the SW¹ Section 18-26N-3W.

As you have pointed out your location is a standard location under the Tapacito Pool rules. The acreage in the unit, however, must be between 158 and 162 acres to comply as a standard unit. As your unit contains only 146.6 acres it will be necessary that approval of the non-standard unit be obtained from Mr. A.L. Porter Box 2088, Santa Fe, New Mexico. Exception is to Rule 5-A of Order R-1670 which gives the general rules and regulations for Northwestern New Mexico. The exception should be requested under the terms of Rule 5-B of the above order. All operators owning interests outside the non-standard gas proration unit but in the same section and all operators owning interests in the acreage offsetting the non-standard gas proration unit must be notified or furnish waivers.

It is not necessary that you hold up drilling operations until approval of the unit has been received; however we will not be able to approve Form G-110 authorizing the transportation of gas from the well until approval has been secured.

If we can be any further service in this matter, please contact us.

Yours very truly

ECA:ks

E. C. Arnold, Supervisor
New Mexico Oil Conservation Commission
1000 Rio Brazos Road
Aztec, New Mexico

Dear Sir:

Enclosed are two Well Location and Acreage Dedication Plats for proposed wells on the Jicarilla-Apache Indian Lands. The locations are within the well spacing area as prescribed by Rule 104 but the acreage dedication is less than prescribed.

As you recall, we discussed this matter during my recent visit to your office on May 21, 1964. Al Kendrick of your office entered in the discussion. We were informed it would be necessary to obtain a waiver from adjoining property owners in such cases. I am of the opinion after re-reading Rule 104 and as we are within the well spacing area it will not be necessary to notify adjoining owners. Please advise.

Notice of Intention to Drill will be submitted for approval within the next few days.

Very truly yours,

Reynold L. Pedersen
Engineer
