Gentlemen:

We are returning two copies of Form C-128 which were forwarded to this office by the U.S.G.S. Office in Farmington in connection with your #1-A Federal well located in the NW Section 17-26N-1E. Will you please answer the questions regarding ownership and communitization at the top of the page and sign for the operator on the right hand side of the page.

We note that you have made a 40-acre location; therefore presume that your acreage dedication will be 40 acres. In the event gas production should be encountered in this well it will be necessary that your acreage dedication be changed to 160 acres, being the NW quarter of Section 17, and as you are located 541 feet from the west line of the Section this would also be a non-standard location with regard to gas production. Before the production of gas could be approved from this well it would be necessary for you to make application for hearing before the Oil Commission for the approval of the non-standard location.

Will you please complete the enclosed forms and return to us.

Yours very truly

Emery C. Arnold
