Breach C #248
A-13-26N-6W
Tapacito-Gallup Associated Pool

Dear Charles:

The pool rules for the Tapacito-Gallup Associated Pool provide for eighty acre oil well spacing and for 320 acre gas well spacing. Well classification is based on the gas-oil ratio. Those wells with gas-oil ratios of less than 30,000 cubic feet per barrel are oil wells, the others are gas wells.

Please submit a revised acreage dedication plat in duplicate to properly represent the subject well.

You may conduct GOR tests at any time to revise the allowable or well classification.

A copy of Order R-3211 is enclosed for your convenience.

If we can be of assistance, please call.

Yours very truly,

A. R. Kendrick
Engineer, District #3
