

NEW MEXICO OIL CONSERVATION COMMISSION  
Santa Fe, New Mexico

## REQUEST FOR (OIL) - (GAS) ALLOWABLE

~~XXXXXX~~  
Recompletion

This form shall be submitted by the operator before an initial allowable will be assigned to any completed Oil or Gas well. Form C-104 is to be submitted in QUADRUPLICATE to the same District Office to which Form C-101 was sent. The allowable will be assigned effective 7:00 A.M. on date of completion or recompletion, provided this form is filed during calendar month of completion or recompletion. The completion date shall be that date in the case of an oil well when oil is delivered into the stock tanks. Gas must be reported on 15.025 psia at 60° Fahrenheit.

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses (Y-axis) is plotted against the number of trials (X-axis). The data points show a positive correlation, indicating that the number of correct responses increases as the number of trials increases. The regression line is shown as a solid line, and the confidence interval is shown as a shaded area.

1

1. **Identify the problem:** The problem is that the company is not meeting its sales targets.

2. **Analyze the problem:** The company is not meeting its sales targets because it is not effectively marketing its products.

3. **Generate solutions:** The company should develop a new marketing strategy that focuses on reaching its target audience.

4. **Evaluate solutions:** The company should evaluate the effectiveness of its new marketing strategy by tracking sales and customer feedback.

5. **Implement the solution:** The company should implement its new marketing strategy by launching a series of targeted advertising campaigns.

6. **Monitor the solution:** The company should monitor the results of its new marketing strategy to ensure it is meeting its sales targets.
