Mr. A. L. Porter, Jr., Secretary-Director
Oil Conservation Commission of the State of New Mexico
P. O. Box 2088
Santa Fe, New Mexico

Dear Sir:

An exception to Rule 2 as provided in Rule 3 of Commission Order Number A-1760-C is respectfully requested for the Caulkins Oil Company Breech "D" Well Number 185 so it can be approved to produce from the Dakota zone. This well is located 1980 feet from the South line and 660 feet from the West line of Section 11, Township 26 North, Range 6 West, Rio Arriba County. Its present depth is 6727 feet with 7" casing to 6722 feet. The Todito sand in this well no longer produces oil and its use to develop the Dakota zone is desired for economic reasons.

A plat is sent herewith showing the ownership of leases adjoining section 11-26N-6W. Caulkins Oil Company is the operator of all the adjoining leases.

This well is located on Federal Lease NM 03553 and a copy of the United States Geological Survey approval of the plan for recompleting it in the Dakota zone is hereto attached.

Yours very truly,

CAULKINS OIL COMPANY
