The elevation of the derrick floor above sea level is 7215 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

After setting 7-5/8" casing on bottom @ 3980' with 125 sx cement, top cement @ 3260', tested with 1000# for 30 min before drilling plug, tested OK, no break.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
