

ADMINISTRATIVE ORDER  
OF THE OIL CONSERVATION COMMISSION

Under the provisions of Rule 112-A, Caulkins Oil Company, made application to the New Mexico Oil Conservation Commission on February 7, 1963, for permission to dually complete its Breach 2E Well No. MD-118 located in Unit N of Section 1, Township 26 North, Range 6 West, 55N11, Rio Arriba County, New Mexico, in such a manner as to produce gas from the Mesaverde formation adjacent to the Blanco-Mesaverde Pool and the Basin-Dakota Pool.

Now, on this 27th day of February, 1963, the Secretary-Director finds:

(1) That application has been duly filed under the provisions of Rule 112-A of the Commission Rules and Regulations;

(2) That satisfactory information has been provided that all operators of offset acreage have been duly notified; and

(3) That no objections have been received within the waiting period as prescribed by said rule.

(4) That the proposed dual completion will not cause waste nor impair correlative rights.

(5) That the mechanics of the proposed dual completion are feasible and consonant with good conservation practices.

IT IS THEREFORE ORDERED:

That the applicant herein, Caulkins Oil Company, be and the same is hereby authorized to dually complete its Breach 2E Well No. MD-118 located in Unit N of Section 1, Township 26 North, Range 6 West, 55N11, Rio Arriba County, New Mexico, in such a manner as to produce gas from the Mesaverde formation adjacent to the Blanco-Mesaverde Pool and the Basin-Dakota Pool through parallel strings of tubing.

PROVIDED HOWEVER, That applicant shall complete, operate, and produce said well in accordance with the provisions of Rule 112-A.

PROVIDED FURTHER, That applicant shall take packer-leakage tests upon completion and annually thereafter during the Annual Deliverability Test period for the Basin-Dakota Pool.

IT IS FURTHER ORDERED: That jurisdiction of this cause is hereby retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

STATE OF NEW MEXICO  
OIL CONSERVATION COMMISSION

A. L. FORTER, Jr.,  
Secretary-Director

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities.

2. It is essential to ensure that all data is entered correctly and consistently to avoid any discrepancies or errors.

3. Regular audits and reviews should be conducted to verify the accuracy and integrity of the information.

4. The use of standardized procedures and protocols is crucial for maintaining the reliability and consistency of the data.

5. It is also important to ensure that all personnel involved in the process are properly trained and informed.

6. The document further outlines the specific steps and procedures to be followed during the data collection and analysis process.

7. These steps include identifying the data sources, defining the variables to be measured, and establishing the methods for data collection.

8. The analysis phase involves organizing the data, performing statistical tests, and interpreting the results in the context of the research objectives.

9. Finally, the document emphasizes the importance of reporting the findings clearly and concisely, using appropriate visual aids and statistical summaries.

10. The overall goal is to ensure that the research process is transparent, reproducible, and yields reliable and valid results.

11. By following these guidelines, researchers can minimize the risk of bias and ensure the highest quality of their work.

12. The document serves as a comprehensive guide for anyone involved in data collection and analysis, providing a clear framework for best practices.

13. It is hoped that these guidelines will be helpful and informative for all who read them.

14. The author expresses their appreciation for the support and assistance provided throughout the process.

15. The document is intended to be a living document, subject to updates and revisions as new information and insights are gained.

16. The author invites feedback and suggestions from readers to help improve the document and its usefulness.

17. The document is available for free distribution and use, provided that proper attribution is given to the author.

18. The author's contact information is provided for those who wish to reach out or request further information.

19. The document is a result of the collaborative effort of many individuals and organizations, and the author is grateful for their contributions.

20. The document is a testament to the power of open communication and the sharing of knowledge for the benefit of the community.

21. The author hopes that this document will inspire others to engage in similar research and contribute to the advancement of their field.

22. The document is a work in progress, and the author is committed to ongoing improvement and refinement.

February 28, 1963

New Mexico Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

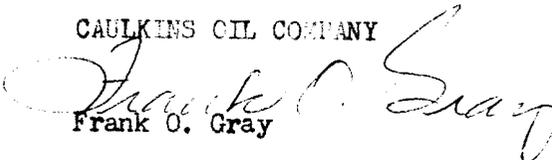

Gentlemen:

On February 6, 1963, we submitted an "Application for Dual Completion" for our Breech "E" well MD-118, SW $\frac{1}{4}$  Section 1-26N-6W, Rio Arriba County, for administrative approval.

Since that time the well has been drilled to its total depth and the Mesa Verde zone does not appear to be productive. Our plans now are to complete it as a single Dakota producer, so we ask that you please cancel our request for approval of the dual completion.

Yours very truly,

CAULKINS OIL COMPANY
