17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The Wildhorse Gallup & Basin Dakota zones were commingled without suitable production. The Dakota was isolated from the Gallup w/packers and a sliding sleeve. The Dakota is producing through 1½" EUE tbg, below Model D packer; The Gallup is temporarily abandoned, isolated from Mesa Verde w/ Model FH packer & behind a closed sliding sleeve on the Dakota string. See Diagram. We request temporary abandonment due to future economic potential of the Wildhorse Gallup zone.
