Re: Jic. Contract 155 #22, 31-26N-5W
Compton Gas Com #1, 33-32N-10W

Dear Buddy:

Approval was granted to commingle the Jic. Cont. 155 #22 well. Tests submitted to this office indicate that this commingling was done, however we do not have any report to show the actual work performed. I need to know when and what work was done, the final depth of the tubing, and any information pertinent to the commingling.

The last report we have on the Compton #1, was an intent to plug and abandon, dated in 1980. If the well was plugged, a plugging report is needed and a completion report. If not, a sundry to show the status of the well and your intent is requested.

If you have any questions, please call.

Sincerely,

A handwritten signature in cursive script that reads "Luanne Hisel".
