United States Geological Survey
P. O. Box 1809
Durango, Colorado 81301

Dear Sir:

Southern Union Production Company proposes to drill the Jicarilla "C" No. 3 well located 1730 feet from the North line and 320 feet from the East line of Section 12, Township 26 North, Range 4 West, N.M.P.M., Rio Arriba County, New Mexico.

Attached are maps showing the following data:

1. Existing roads.
2. Planned access road.
3. Location of existing wells.
4. Lateral roads to well locations.
5. There will not be any tank batteries on this location.
6. Drilling and completion water will be obtained from our sump on the Tapacito Wash located in the SW 1/4 of Section 16, T-26N, R-4W.
7. Waste will be disposed of by being placed in the reserve pit and buried. Some waste will be disposed of by burning in the Burn Pit then the Burn Pit will be covered upon completion of well.
8. There will be no camp near the proposed well site.
9. There will be no air strip.
10. A map is attached showing the location of the rig, mud tanks, reserve pit, ect.
11. After the well is completed the location will be cleaned and bladed. The reserve pit will be fenced until it has dried then the location timber will be put into the pit. The pit then will be covered and restored to its natural state. The access road will be used for access to the well, production and maintenance purposes.
12. Sage Brush, Pinon and Juniper are the predominate vegetation with sparse grass on sandy clay loam.
13. A letter of Certification is attached.

SOUTHERN UNION PRODUCTION CO.

Rudy D. Motto
Area Superintendent
