United States Geological Survey  
P. O. Box 1809  
Durango, Colorado 81301

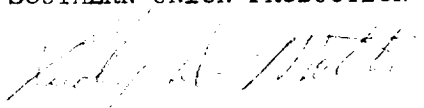

Dear Sir:

Southern Union Production Company proposes to drill the Jicarilla "C" No. 4 well located 990 feet from the North line and 920 feet from the West line of Section 12, Township 26 North, Range 4 West, N.M.P.M., Rio Arriba County, New Mexico.

Attached are maps showing the following data:

1. Existing roads.
2. No access road is required.
3. Location of existing wells.
4. Lateral roads to well locations.
5. There will not be any tank batteries on this location.
6. Drilling and completion water will be obtained from our sump on the Tapacito Wash located in the SE 1/4 of Section 16, T-26N, R-4W.
7. Waste will be disposed of by being placed in the reserve pit and buried. Some waste will be disposed of by burning in the Burn Pit then the Burn Pit will be covered upon completion of well.
8. There will be no camp near the proposed well site.
9. There will be no air strip.
10. A map is attached showing the location of the rig, mud tanks, reserve pit, ect.
11. After the well is completed the location will be cleaned and bladed. The reserve pit will be fenced until it has dried then it will be covered and returned to its natural state. There will be no timber on this location.
12. Sage brush with grass is the predominate vegetation on sandy clay loam.
13. A letter of Certification is attached.

SOUTHERN UNION PRODUCTION CO.

  
Rudy D. Motto  
Area Superintendent
