

3. Ancillary Facilities.
 - a. No camps or airstrips will be needed in the drilling of this well.
9. Well Site Layout.
 - a. See Exhibit "A".
 - b. Pits will be unlined.
10. Plans for Restoration of Surface.
 - a. See 4:C and 7:A-F.
 - b. See 7:A-F or per BIA specifications for that area.
 - c. Prior to rig release, pits will be fenced and so maintained until clean up.
 - d. If any oil is on the pit, it will be removed or overhead flagged.
 - e. Rehabilitation operations will be done during the best weather conditions to promote regrowth in area. All seeding will take place between July 1 and Sept. 15.
11. Other information.
 - a. Site is located at base of a low mesa in a flat area. Vegetation is principally sagebrush, grama grass, galleta grass and sand dropseed grass with some juniper and pinion pine to the East.
 - b. The surface is used for grazing.
 - c. No open water, occupied dwellings, archeological, historical, or cultural sites are located within ½ mile of this site.
12. Operator's Representative.
 - a. Field personnel who can be contacted concerning compliance of this Surface Use Plan are as follows: Donald Barnes, 720 South Colorado Boulevard, Denver, Colorado 80202. Office = 303/758-7130 ext. 212.
13. Certification.

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drill site and access route; that I am familiar with the conditions as they actually exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and that the proposed work performed by Tenneco Oil Company and its contractors and sub-contractors will conform to this plan.
