

10. Plans for Surface Restoration:

- (1) All topsoil that is stripped and stockpiled will be replaced and the site will be backfilled, levelled, and contoured. Waste will be buried or hauled away upon completion of drilling.
- (2) Rehabilitation will consist of respreading and contouring stockpiled topsoil. Revegetation will consist of planting seed mix specified by BLM or landowner. If the well is dry, a dry hole marker will be erected, and the access road will be plowed, ripped, and reseeded as requested.
- (3) Prior to rig release, the reserve pit will be fenced and so maintained until the pit is dry enough to backfill.
- (4) Oil in the reserve pit will be removed and the pit will be flagged to discourage livestock, wildlife, and waterfowl from entry.
- (5) Rehabilitation will begin upon cessation of drilling operations.

11. Other Information:

- (1) The topography of the area is dominated by precipitous 600-foot cliffs which form the walls of Largo Canyon. The surface soil is composed of sand from the San Jose formation which is exposed in the walls of the canyon. Local vegetation includes juniper, pinon, sagebrush and rabbit brush. Wildlife consists of coyotes, rabbits, and an occasional deer.
- (2) The area is used for grazing cattle. The surface owner of record is:
Bureau of Land Management
P. O. Box 1449
Santa Fe, New Mexico 87501
- (3) The nearest known water source is from man-made water sumps dug in the floor of Largo Canyon. The Kaime Ranch approximately one-mile to the southwest constitutes the only known occupied dwelling in the area. No recognized archeological, historical, or cultural sites other than those referred to in the attached archeological report are known to exist in the immediate area.

12. Lessee's or Operators Representative:

- (1) Mr. Fred Crum
Box 400
Aztec, New Mexico 87410
(505) 334-6003
- (2) Mr. W. F. Schwenn
DEPCO, Inc.
1000 Petroleum Building
Denver, Colorado 80202
(303) 292-0980

13. Certification:

I hereby certify that I, or persons under my direct supervision have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by DEPCO, Inc. and its' contractors in conformity with this plan and the terms and conditions under which it is approved.
