17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was originally scheduled to be a Basin Dakota completion only. After the logs were run, it was determined that the Mesaverde should also be completed. We hereby request permission to make the well a Basin Dakota - Blanco Mesaverde dual completion. A packer will be set to separate the two zones. 2-3/8" tubing will be run to the Dakota zone and the Mesaverde zone will be produced through the annulus.
