17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The "Application to Drill" requested a Dakota completion only. After the logs were run, it was decided that the Mesaverde zone should also be completed. We request permission to make this well a Blanco Mesaverde - Basin Dakota dual completion. A packer will be set to separate the two zones. Tubing will be run to the Dakota. We propose to produce the Mesaverde zone through the annulus.
