13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Amoco recently trimmed production in the subject well. The initial approval excluded condensate allocation for the mesaverde formation. The mesaverde actually produces a small amount of condensate. Based on historical production Amoco would like to allocate condensate to all 3 formations as follows:

Gallup 73.64%

Dakota 20.76%

Mesaverde 5.60%

Ownership interest in each formation is the same
