Packer Leak
Jicarilla Contract 155 No. 27
Section 27, T26N, R5W
Rio Arriba County, New Mexico

9-32-26N-5W
FEB 19 1986
OIL CON. DIV.
DIST. 3

Amoco Production Company requests an extension in the time allotted to fix a known packer leak. The Jicarilla Contract 155 No. 27 has a packer leak as was evident in the January 31, 1986 packer leakage test. Amoco is currently attempting to measure the bottom hole pressures to determine if the well qualifies for commingling. Amoco will either file for commingling or initiate work to repair the packer leak when the pressures are obtained. Thus, we request the extension of time to fix the packer leak until the proper course of action can be determined.

This letter was submitted as requested by the NMOCD in a phone conversation between Mr. Charlie Gholson and Ed Alizadeh on February 10, 1986. If you have any questions, please contact Ed Alizadeh, extension 246.

Sincerely,

R. J. Broussard
