13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The packer seals segregating the Blanco Mesa Verde and the Basin Dakota pools has failed. This effectively commingles these pools. It is anticipated that plunger lift will be installed before 1/1/96. The coiled tubing will be removed at that time.

The effective date of commingling should be 7/15/95
