Re: Canada Ojitos Unit #21, G-32-26N-1W

Dear Virgil:

Our records indicate that you have been producing the referenced well without an allowable since July. You have submitted a C-104 showing the date of first new oil to tanks as 9/27/84 in conflict with your July C-115. We are returning the C-104 for correction.

Also, as per Rule 303 the initial GOR test for this well is delinquent and the allowable will not be assigned until the test is received on form C-116.

Sincerely,

A handwritten signature in dark ink, appearing to read "Frank T. Chavez".
