☐ Conversion to Injection

☐ Dispose Water

17. Describe Proposed or Completed Operations:

5-28-96

This well is currently logged-off and we are unable to swab well due to tight spots in tubing at approximately 2800'.

We intend to pull and salvage 1 1/4" tubing presently in well. Then run new 2 3/8" tubing to approximately 7350' with Baker Model R-3 packer and reverse flow check valve set between Dakota and Mesa Verde zones.

Approval for a small flare pit is requested during workover operations.

Area surrounding pit will be cleared and water will be available on location.

No new surface will be disturbed, location area and pit will be cleaned up and covered when work is completed.

Estimated starting date - August 6, 1996

NOTE: The format is issued in lieu of U.S. BLM Form 3160-5
