(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Because of irreparable damage to the wellbore, Amoco Production Company abandoned the Gallup horizon by setting a permanent bridgeplug at 6098 ft. A packer was set below the Mesaverde perforations and the bridgeplug was pressure tested to 1000 psi. The bridge plug held OK. Amoco retrieved the packer and then landed 2-3/8 inch production tubing at 6067 ft. to produce the Mesaverde horizon.
