Dear Mr. Montoya:

The 1996 Packer Leakage tests on the above referenced wells indicate communications between the producible zones.

To comply with NMOCD Rule #112-A you are hereby directed to have completed any remedial work required to bring them into compliance by June 12, 1998, and retest. Our office also requests that you respond to our office in letter form by June 27, 1997, the steps you will be taking and by what date you intend to have these wells in compliance.

Please feel free to call me at this office if you have any questions.

Sincerely,

Ernest Cardona
Deputy O&G Inspector
