Re: Gran #1R; 21-26N-1E

Gentlemen:

Our records indicate that you have perforated out of zone. The referenced well is approved to produce only from the Mancos formation. Your perforations of 3370'-3540' are in the Dakota formation. The Dakota and Mancos zones must be separated by a packer.

Form C-107 (Application for Multiple Completion) must be filed, according to rule 112-A. A C-102 for the Dakota must be filed. These must be filed within thirty days. Find enclosed, one C-107 and C-102 with this letter.

If you have any questions, please call this office.

Yours truly,

A handwritten signature in cursive script, appearing to read "Ernie Busch".
