17. Describe Proposed or Completed Operations:

7-22-96 Pulled 1 1/2" tubing with packer and reverse flow check valve.

Tubing was plugged with barium sulfate in joint with reverse flow check valve.

Re-ran 1 1/2" tubing to 7182' with 2 joints of 2 7/8" tubing on bottom.

Well is now open hole commingled.

Chemical will be injected down casing while well is flowing in an attempt to eliminate build up of barium sulfate in this well.

NOTE: The format is issued in lieu of U.S. BLM Form 3160-5
