Gentlemen:

The completion of the subject well was begun on December 28, 1988 and should be completed by January 4, 1989. In order to evaluate the well's potential and most effective production technique, Southland Royalty requests a temporary permit to flow test this well for 2000 barrels of oil. Thank you for your cooperation.

Sincerely,

A handwritten signature in cursive script, appearing to read "Peggy Bradfield".
