13. Describe Proposed or Completed Operations

Please cancel sundry dated 11-13-95.

On sundry dated 9-6-95, we said cmt did not circ to surface on the second stage, when in fact a trace of cmt was circ to surface. After reading the hard copy of the cement bond log in the office, cement was determined to be @ surface. The cement bond log shows 50-100% bonding from TD @ 7315' to 3720' and 30-100% bonding from 3720' to surface.
