13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was originally given the name "Jicarilla 'E' #15M" since it will be downhole commingled in the Mesaverde and Dakota after it is drilled. Therefore, an APD and a Downhole Commingling Application were both filed and approved with the original name.

However, further investigation revealed that while this new location would be an infill well for the Dakota, there is currently no existing Mesaverde well in the W/2 of Section 16. According to OCD naming policies, the suffix "M" is used when the new location is an infill well in multiple pools. Since it is an infill well only for the Dakota, the Dakota suffix "E" must be used with the original Dakota well number. Therefore, the original "Jicarilla 'E' #15M" should be changed to:

Jicarilla "E" #15E
