13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The subject well was initially permitted as an Otero Chacra development well and 4-1/2" casing was cemented at a total depth of 3475' on 10-5-97. We now propose to complete the South Blanco Pictured Cliffs interval at the approximate depths of 2278-2342' in addition to the Otero Chacra at approximately 3170-3399'. An application to downhole commingle both zones will be subsequently submitted for approval. A C-102 for proposed South Blanco Pictured Cliffs completion is attached.
