13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Conoco is currently doing an extended production test of the Dakota formation and will determine shortly is a re-stimulation of the Dakota is warranted before moving uphole to do additional work.

After a decision is made on the Dakota, the well will be completed in the Mesaverde for a downhole commingle completion.

Upon completion of the Point Lookout in the Mesaverde, remedial cementing will be done to isolate the Pictured Cliffs and Fruitland formations.
