Re: Benson-Montin-Greer
Puerta Chiquita Unit #17
D-9-26N-1E

Dear Mr. Greer:

In September, 1965, a miscellaneous notice was filed on the above well showing that 10-3/4 inch surface casing had been cemented at 107 feet with 75 sacks of cement. The notice stated that a rotary rig would be moved to the location. No further information has been received.

Will you please indicate if it is still your intention to drill this well? If you do not intend to drill the well deeper, perhaps you should cement a surface marker and file an abandonment notice so that we may relieve you and the bonding company of future plugging responsibilities.

Yours very truly,

Emery C. Arnold
