Re: Ladd Petroleum Corporation
Lindrieth #24
F-4-26N-7W

Gentlemen:

The subject well shows recent production history problems and the packer tests are inconclusive. Therefore, we would like to packer test the well with the following procedure:

Shut in both zones for 7 days - record 7 day Shut In pressures. Flow Dakota zone 7 days - record pressures of each zone daily.

Please contact this office to schedule the test so that we may have a witness present for the flowing pressure measurements.

Sincerely,

Frank T. Chavez
Deputy Inspector, District #3
