Subject: #1 Harold Bagay
C NW SW Section 25-25N-11W
San Juan County, New Mexico

Attention: Mr. Robert O. Lavers

Dear Sir:

Attached is a letter from Mr. Emery C. Arnold, Supervisor, District #3, New Mexico Oil Conservation Commission, relative to the subject well. As stated in Mr. Arnold's letter, this well was located as a standard oil well location, as we anticipated completing this well as an oil well. However we did not find the Gallup sand to be oil productive, but gas productive, and consequently the well was completed as a gas well.

The attached letter and State Order No. R-855 explain the State's position relative to a non-standard gas producing location and the procedure to follow in order to establish an allowable for this well. Since your company has assumed the operation of this lease effective February 1, 1957, we feel that it is their responsibility to institute this hearing before the Commission.

If we can be of further assistance, please advise.

Yours very truly,

Dear Sir:

Attached is a letter from Mr. Henry O. Arnold, Supervisor, District #3, New Mexico Oil Corporation Commission, relative to this subject well. As stated in Mr. Arnold's letter, this well was located as a standard oil well location, as we anticipated completing this well as an oil well. However we did not find the falling sand to be oil productive, but gas productive, and consequently the well was completed as a gas well.

The attached letter and State Order No. 1-67 explain the State's position relative to a non-standard gas producing location and the procedure to follow in order to establish an allowable for this well. Since your company has assumed the operation of this lease effective November 1, 1937, we feel that it is their responsibility to investigate this bearing before the Commission.

If we can be of further assistance, please advise.

Very truly,
Sincerely,
Respectfully,

WILLIAM A. ANDERSON
District Superintendent
