17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The above well was shut-in of February 13, 1976 when the Dakota gas wells on the lease went on line. The well is uneconomical to produce. Latest production was 1 BOPD and 0 BWPD.

This request is being filed to obtain approval to temporarily abandon the well to allow time to evaluate its use as a water disposal well for nearby Dakota water production and to determine if the Pictured Cliffs gas zone is productive.

Because accepted cementing practices were used upon completion, the casing string should be in good condition, preventing damage to the Gallup formation, migration of hydrocarbons or water, contamination of fresh water or other natural resources, or the leakage of any substances at the surface.

TEMPORARY ABANDONMENT

EXPIRES

JUN 1 1977

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
