LOG OF OIL OR GAS WELL

The purpose of this log is to record the results of the work done in the well, and to provide a permanent record of the same. It is to be filled out by the person or persons who are engaged in the work, and it is to be kept in the well, and to be available for reference at all times.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked", or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
