Attention Mr. A. R. Kendrick
Engineer, District No. 3

Gentlemen:

In reply to your letter of August 12, 1968, regarding Carson Unit well No. 43-13, we are returning the report of remedial action to your office.

During previous well pulling operations, we have located hard fill in this well at a depth of 4,963 feet. No effort has been made to recover the lower intervals since they are considered poor pay. Therefore, the effective depth of this well is 4,963 feet.

Very truly yours,

For W. T. Weller, Jr.
Division Exploitation Engineer
San Joaquin Division
