Re: Thomas A. Dugan Bedford #1
SW/4 NW/4 Sec. 15, T25N, R11W, Administrative Order NFO-569

Dear Mr. Porter:

This is to request permission to continue to flare gas on the above well. This well produces only 19.46 MCF gas per day as shown on the GOR test run July 18, 1964. It is economically unfeasible to install a line 1/2 mile to the nearest gathering system.

Sincerely,

Thomas A. Dugan
