Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The subject well was pump tested 10/15/76 under a packer at the rate of 11 BOPD, 0 BWPD and 366 GOR. The well has a 5 1/2" 15.5# casing leak probably across the Menefee Formation. It is proposed to repair this well's casing by locating the leak with a casing inspection log, isolating the hole with a BP and packer, and squeezing with an estimated 150 sacks cement.

Upon approval, this work is anticipated to commence on or about 11/15/76.

18. I hereby certify that the foregoing is true and correct
