[illegible]

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company _____

Address _____

By _____

Title _____

1. The first step in the process is to identify the problem. This is done by gathering information about the problem and its causes. Once the problem is identified, the next step is to develop a plan to solve it. This plan should be based on the information gathered in the first step.

2. The second step in the process is to implement the plan. This is done by putting the plan into action and monitoring the results. Once the plan is implemented, the next step is to evaluate the results and make any necessary adjustments.

3. The third step in the process is to evaluate the results. This is done by comparing the results of the plan to the original problem. Once the results are evaluated, the next step is to make any necessary adjustments to the plan. This process is repeated until the problem is solved.

4. The fourth step in the process is to make any necessary adjustments to the plan.

5. The fifth step in the process is to make any necessary adjustments to the plan.

6. The sixth step in the process is to make any necessary adjustments to the plan.

7. The seventh step in the process is to make any necessary adjustments to the plan.

8. The eighth step in the process is to make any necessary adjustments to the plan.

9. The ninth step in the process is to make any necessary adjustments to the plan.

10. The tenth step in the process is to make any necessary adjustments to the plan.

11. The eleventh step in the process is to make any necessary adjustments to the plan.

12. The twelfth step in the process is to make any necessary adjustments to the plan.
