Farmington, New Mexico 87401

Dear Mr. Pearson:

We are requesting that a special GOR test be scheduled for the Independent Oil Company Rudman #1 well located in the northwest quarter of section 27, township 25 North, range 9 West.

We wish to produce the well for a seventy-two hour period with the last twenty-four hour period being the official test period. The Commission also wishes to have a witness present during the twenty-four hour test period.

I suggest that the test be scheduled so that the test period will fall during the early part of the week commencing March 5, 1967. Will you please let us know which day is convenient for you?

Yours very truly,

Emery C. Arnold
