13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Swab testing of this well has indicated that while gas can be produced, water production and high line pressures do not allow gas to be sold. We plan to install a pump jack to lift the water and test a compressor installation to produce gas into the sales line.
