Completion or Recompletion Report and Log form.)

(Other) shut in ☒

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

The above referenced well is a pumping well and does not have a packer.
We would like long term shut in as the well is not economically feasible
to produce at this time.

The well was drilled in 1984 and casing was cemented with good return on
cement.
